Emma Busby & Rocky*

Our 2023 Habitat STW ReStore Homebuyer is Emma Busby. Emma is a Certified Medical Assistant at Louisiana Hand to Shoulder Center. She has an 11-year-old rescue Chihuahua. She has also worked as a voter commissioner for 7 years and has been a commissioner in charge for the past 3 years.

A typical day for her is to wake up, walk her dog, Rocky, then get ready for work. When she gets home in the afternoon, she'll either walk Rocky or take him for a car ride to the dog park. She also has a pet carrier attached to a bike for Rocky to ride in. She loves her simple, peaceful life and hopes it to be even more simple when she gets into her new home.

Emma is very much looking forward to her our own sanctuary for her and Rocky. She is most excited for Rocky to have his very own yard in which to run around. She also enjoys growing plants and will have a vegetable garden with her own composter to make use of kitchen scraps and waste.

After moving in and decorating her new home, she plans on saving for a whole house generator so she and Rocky will be comfortable in power outages and her parents can stay with her in the event of a hurricane. She would also like to screen-in my back porch so that she can read and spend time on her back porch without getting mosquito bites

She will be prepared for whatever comes her way. She says this is a way to care for her parents and make sure they will always have a roof over their heads and will be taken care of.
